So what's this all about?

In 2001 the DTE Energy Natural Gas Easement Program was established. Under this program, eligible customers within specific service territories can benefit from reduced utility delivery charges and surcharges.

How do I determine if I qualify for this program?

The easement program is exclusive to natural gas customers of DTE Energy in Wayne, Washtenaw, Oakland, Macomb, Monroe, Livingston and Lenawee counties. If you are located in one of these counties, you may be eligible.

Who offers this Program?

Alternative Energy Source (AES) is marketing this Easement Program through its affiliation with Constellation. Since 2001, when the program was first established, Exelon Energy (now Constellation, an Exelon company) has had the exclusive rights to manage this money saving program.

How will entering the Easement Program benefit my business?

The key benefit is due to Constellation's ability to provide lower distribution charges than DTE Energy standard tariff rates. In fact, Constellation is able to offer a guaranteed **10 percent distribution discount** and eliminate several utility surcharges for accounts within the defined service territory.

Is there a minimum usage requirement to participate in this program?

No. As long as your business is located within the eligible service territory and you're a DTE Energy customer, you are able to participate and benefit from this exclusive savings program.

How do I determine the potential cost savings?

Simply provide us a copy of your DTE Energy natural gas invoice and a letter of authorization (provided by us for your signature) to obtain and confirm your usage information. Upon receipt, one of our energy professionals will confirm your eligibility and perform an in-depth analysis to estimate your program savings. As already stated, a minimum 10% distribution savings is guaranteed but your savings could be considerably higher. Keep in mind, you are under no obligation to change from your current situation.

How do I enroll into the program?

Signing up for the Easement Program is simple, fast and painless. An Alternative Energy Source (AES) professional will walk you through the process and in just a few steps, you'll begin to enjoy the benefits of lower natural gas costs.

If I participate in this program, what changes should I expect to see on my bill?

The number one change is that you will no longer receive a bill from DTE Energy as it pertains to your natural gas. The bill you will receive from Constellation will include your monthly commodity costs along with your discounted distribution rate, plus any applicable taxes & fees. The information will be clearly stated to be as transparent and understandable as possible.

There is no cost or obligation to find out how much you can save on this program. Contact Alternative Energy Source today about getting started.
